

Method to add a new printer

Problems may happen during installation, please follow below steps to add a printer when you can not see driver icon shown on devices and printers

1、 Open devices and printers

2、 Click into [add printer], click [Add local printer] then [next]

- 3、 Choose LPT port as default ,then click [next]

- 4、 Install driver from Have Disk

5、 Browse C driver as below

6、 Find out file folder name POS PRINTER DRIVER in My Computer C: driver

7、 Choose a right system, 32-bit or 64-bit

8、 Choose INF file

9、 Choose [OK]

10、 Choose a corresponding printer type, then click [next]

11、 Click [next]

12、 Choose " Install this driver software anyway"

13、 Click [next]

The screenshot shows the 'Add Printer' wizard in Windows. The title bar reads 'Add Printer'. The main heading is 'Printer Sharing'. Below the heading, there is a paragraph of text: 'If you want to share this printer, you must provide a share name. You can use the suggested name or type a new one. The share name will be visible to other network users.' There are two radio button options: 'Do not share this printer' (which is selected) and 'Share this printer so that others on your network can find and use it'. Below the second option, there are three text input fields: 'Share name:' with the value 'BC-80POS', 'Location:', and 'Comment:'. At the bottom right, there are two buttons: 'Next' (highlighted with a red box) and 'Cancel'.

14、 Click [Finish]

The screenshot shows the completion screen of the 'Add Printer' wizard. The title bar reads 'Add Printer'. The main heading is 'You've successfully added BC-80POS'. Below the heading, there is a checked checkbox with the label 'Set as the default printer'. At the bottom, there is a paragraph of text: 'To check if your printer is working properly, or to see troubleshooting information for the printer, print a test page.' Below this text is a button labeled 'Print a test page'. At the bottom right, there are two buttons: 'Finish' (highlighted with a red box) and 'Cancel'.

15、Click and chose printer properties

16、Choose a corresponding port, then click [Apply]

17、 Click [General], start testing and click [Print Test Page]

*Once you could print test page, said that driver installed successfully*

*Congratulations and thank you!*
