Contents

Chapter 1 Introduction

The hardware and software configuration are required when installing EPSON JavaPOS ADK.Please refer to the "ReleaseNotes.txt" for the support environment.

For linux user, please refer to the "EPSON JavaPOS ADK Installation Guide for Linux.txt" for downloads and detailed installation instructions.

Chapter 2 Caution

1. In case it is already installed JavaPOS 1.14.5 or previous version, uninstall it first before installing JavaPOS.

2. Please connect a printer after installing JavaPOS driver.

3. Please install Java Advanced Imaging (JAI) in case of using CheckScanner.
   Please refer to the following website for downloads and detailed installation instructions:
   http://www.oracle.com/technetwork/java/current-142188.html

   If you install JAI with 64-bit Java on Windows operating systems, download and run the jai-1_1_2_01-lib-windows-i586.exe. After installation, copy jai_codec.jar and jai_core.jar into the 64-bit Java's ext folder.
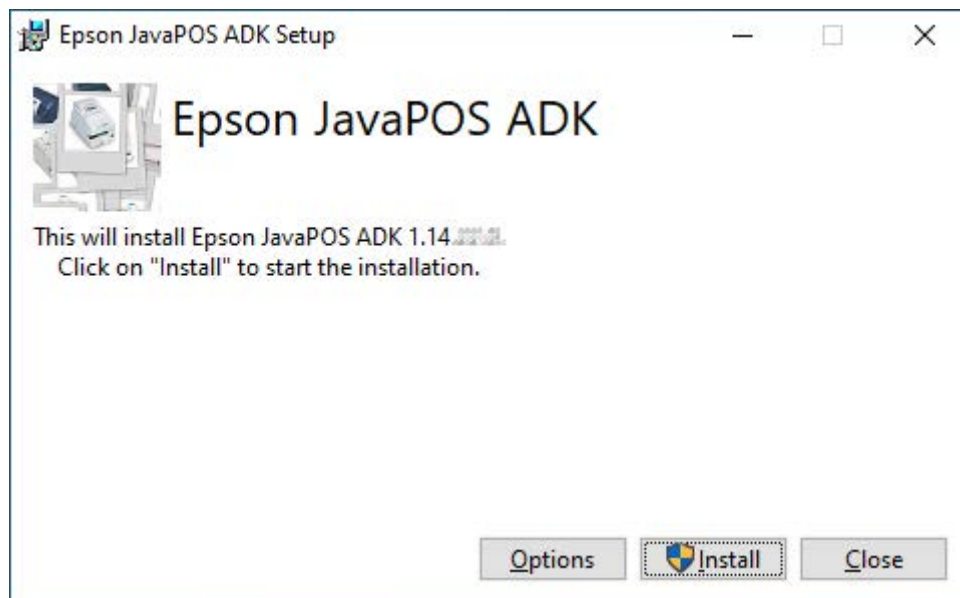

Chapter 3 Installation

3.1 Install Java

Java must be installed on your system before you can run the installer. This can be downloaded from https://java.com/.

Users: Install the Java Runtime Environment (JRE).

Developers: Install the Java Development Environment (JDK).

3.2 Install JavaPOS

Execute EPSON_JavaPOS_1.14.XX.exe.

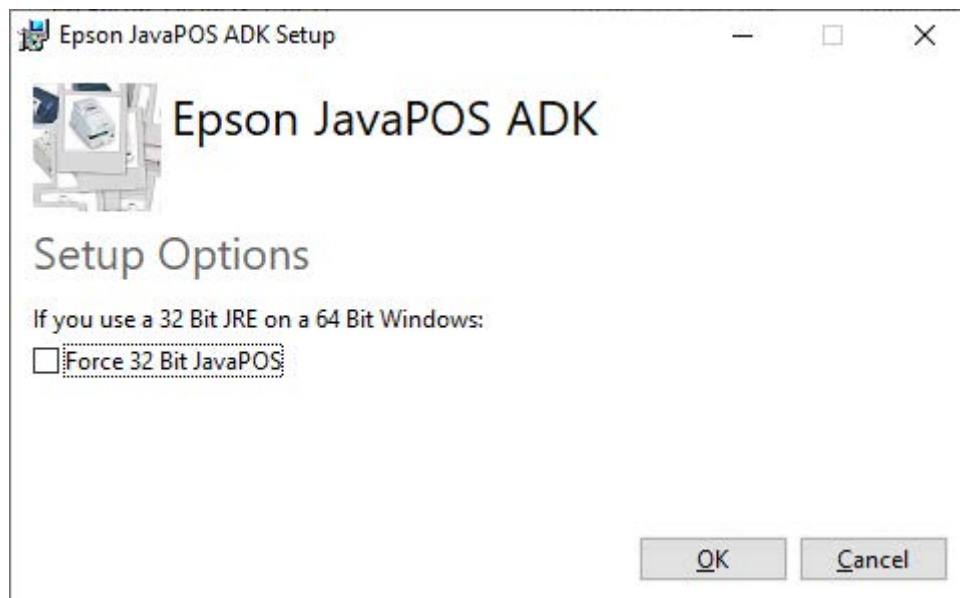

In case using Java Virtual Machine 32bit version in 64bit OS, it is necessary to change the setting.Click Options. Proceed to 3.3. Configure your Java Virtual Machine.

Overwise, click Install to continue installing the software. 3.4 Pre-Installation checks.

3.3 Configure your Java Virtual Machine

In case using Java Virtual Machine 32bit version in 64bit OS, enable "Force 32bit JavaPOS" from "Options".

Click OK to return to the previous screen, so click Install to continue installing the software.

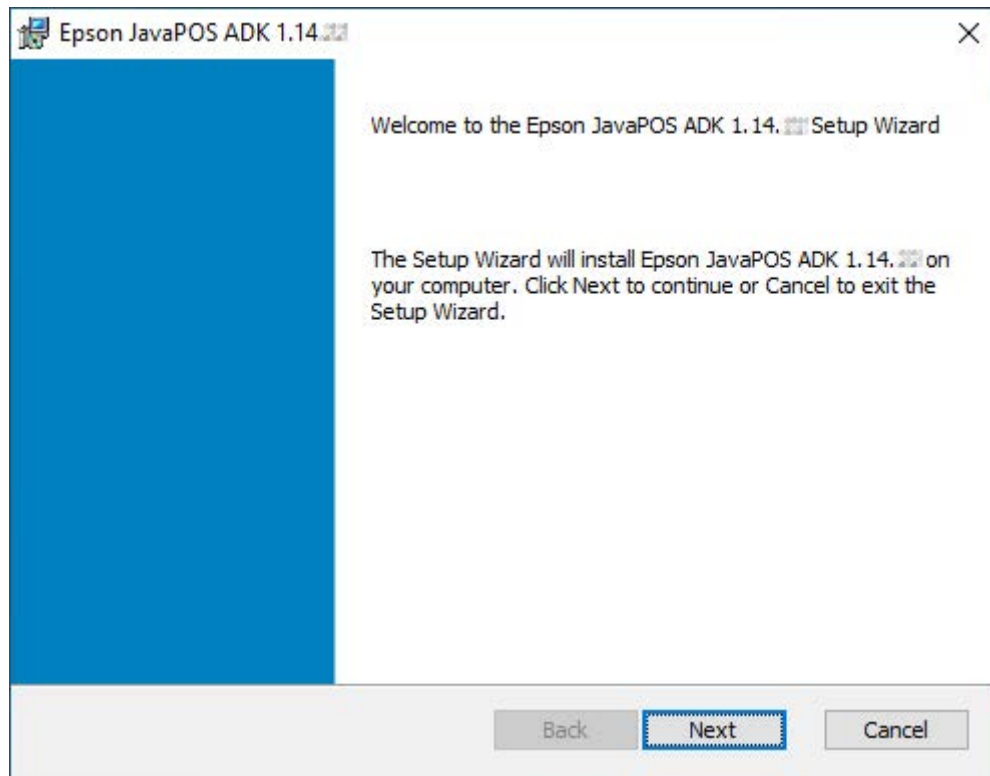

3.4 Pre-Installation checks

The following is checked before proceeding with the install:

- If the system already has the same version of the software installed, then the installer will display an error message and exit.

3.5 Introduction
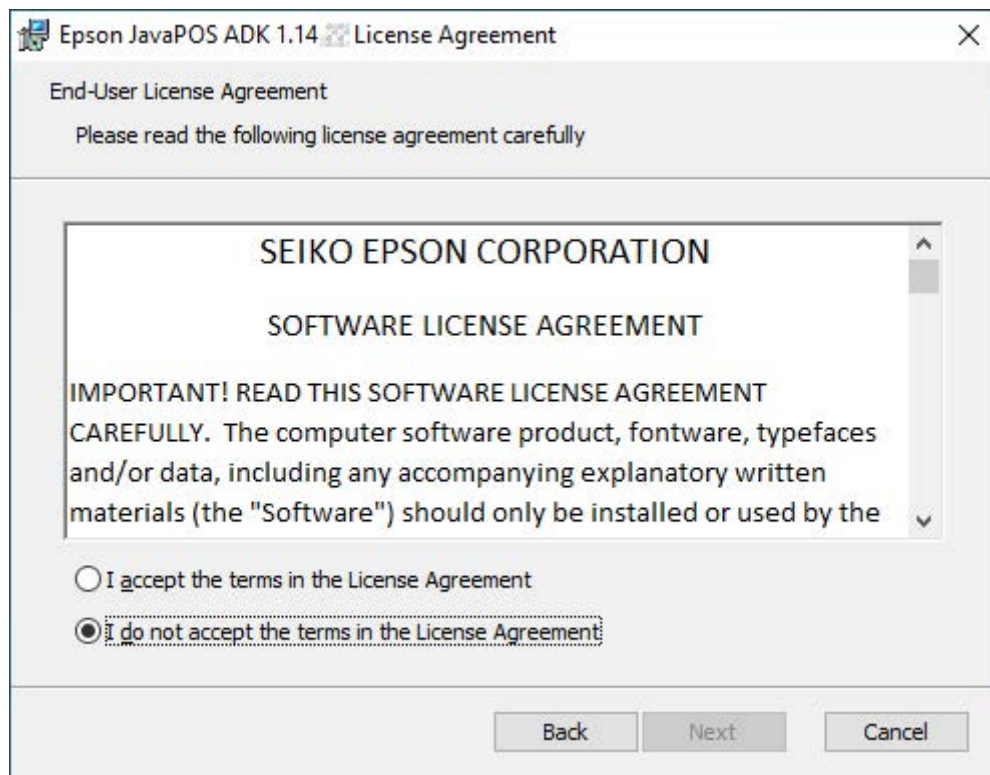

Following window screen is Setup Wizard of JavaPOS ADK.

Click Next to continue installing the software.

5

3.6 License Agreement

The user must agree to the License Agreement to continue with the installation. After reading the entire agreement, select "I accept the terms of the License Agreement" and then click Next.
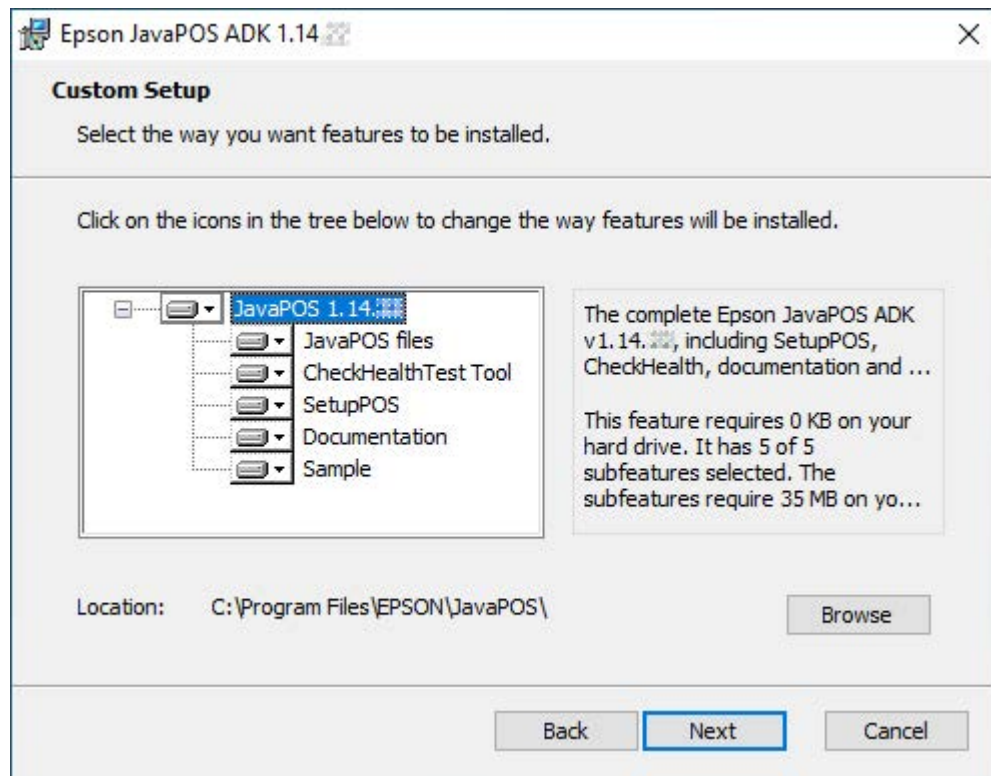

If "I accept the terms of the License Agreement" is not selected, Next is not enabled.
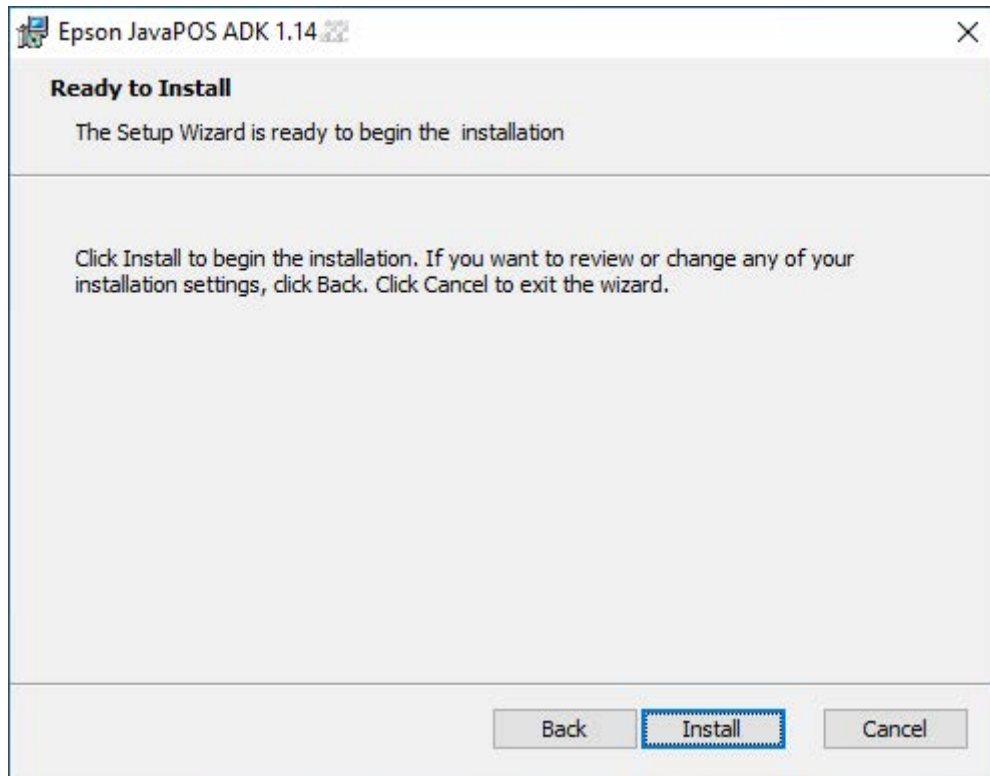

3.7 Selecting Components to Install

Select the components to install and click Next.

Choose "JavaPOS files" at least.

3.8 Pre-Installation Summary

The following window screen is the confirmation message before installation. If the settings are correct, click Install.

Installation Guide
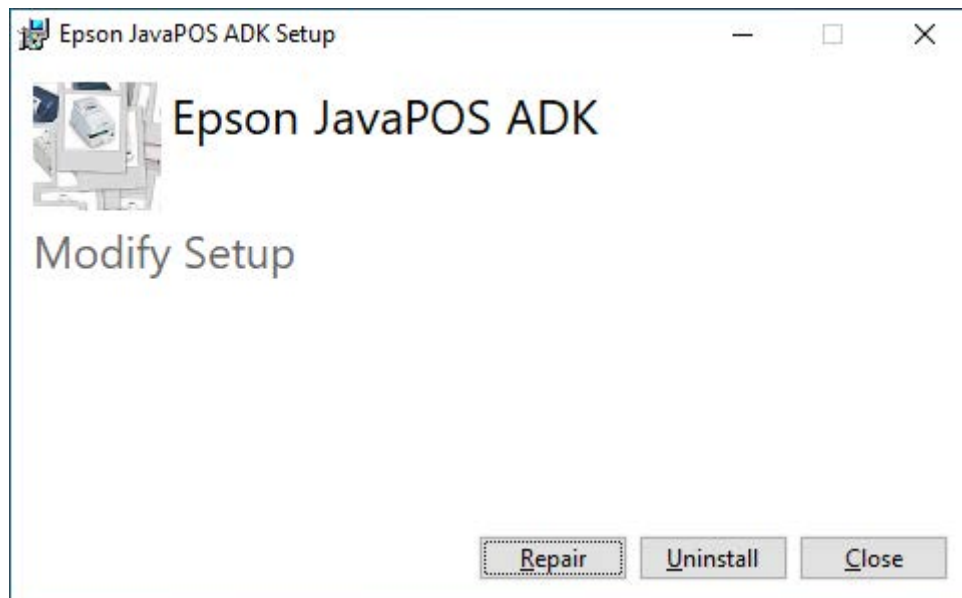

Chapter 4 Uninstalling

4.1 Changing Installed Items and Starting Uninstall

Double-click the Add or Remove Programs icon in Control Panel, and click Change or Remove.

4.2 Confirm uninstallation

Click Uninstall button to start uninstalling.

When it needs to restore the deleted files, press "Repair" button.

4.3 Delete Electronic Journal data files

The uninstaller does not remove data files created for the Electronic Journal. If these files have been created, they must be deleted manually.

9

Chapter 5 Silent Installation/Uninstallation

5.1 Running Installation

(1) In case using Java Virtual Machine 32bit version in 32bit OS

Using the command prompt, append option to the installer file and run it.

Example:

EPSON_JavaPOS_1.14.XX.exe /q DisplayInternalUI="no"

Installdirx86="C:\ProgramFiles\EPSON\JavaPOS"

(2) In case using Java Virtual Machine 64bit version in 64bit OS

Using the command prompt, append option to the installer file and run it.

Example:

EPSON_JavaPOS_1.14.XX.exe /q DisplayInternalUI="no"

Installdirx64="C:\ProgramFiles\EPSON\JavaPOS"

(3) In case using Java Virtual Machine 32bit version in 64bit OS
